APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application
 and do hereby grant the same, subject to the following limitations and
 conditions: This permit is issued subject to all existing rights on
 the source. A valve must be installed and maintained to prevent
 waste of water and accurate measurements of water placed to beneficial
 use must be taken from time to time. This source is located within
 an area that has been designated by the State Engineer as coming within
 the meaning of the provisions of the 1939 Underground Water Act as amended
 in 1943; therefore the State has the right to regulate the use of the
 water herein granted at any and all times. It is understood that
 following development of water under this permit, that permittee waives
 any right under Permit No. 10066 on land covered by Permit 11834.
 The amount of water to be appropriated shall be limited to the amount
 which can be applied to beneficial use, and not to exceed 0.03
 cubic feet per second.
